Strategic Market Analysis: Key Drivers, Comparison, and Selection

MASTERS' UNION

Market Entry Strategy: Targeting Domains 1,2 & 3 in the UAE and Domain 1 & 3 in the USA

KEY DRIVERS

Private School Dominance

Larger private school enrolment **cuts language barriers**, streamlining **cost-effective**, language-consistent content and helps in collaborations.

Population

The **Indian diaspora families** both fuel sales and **catalyze broader product outreach** to non-diaspora audiences.

Educational Synergy

Students in CBSE or similar curriculum schools ensures a continued emphasis on the Indian style of education.

Growing Market

Targeting a growing market offers **increased demand**, **less competition**, innovating chances, adaptability, and long-term growth potential.

Comparable Market Selection

		3-18 yrs Population X	ARPU*	Market Size	Key Drivers Performance & PESTEL Analysis	Country Specific Factors	Decision
Middle-East	UAE 	2.07 million	$662	$ 1.37 billion	Key Drivers: Population, Private School Dominance, Growing Market, Education Synergy PESTEL: P ✓ T ✓ E ✓ E ✓ S ✓ L ✓	UAE's **full-capacity CBSE schools** offer a cost-efficient avenue for us to provide the **same content as in India**, maintaining the essence of Indian-style education.	✓ **Enter with Domain 1, 2 & 3**
Middle-East	Saudi Arabia 	11.2 million	$69.5	$778 million	Key Drivers: Population, Private School Dominance, Growing Market, Education Synergy PESTEL: P ✗ T ✓ E ✗ E — S ✓ L ✗	Saudi Arabia's **private education growth**, driven by a **knowledge-based economy shift** and reduced public spending, aligns with "**Vision 2030**," creating collaboration opportunities like the UAE's full-capacity CBSE schools.	✗ **Entry on hold till improvement in pull factors**
North America	United States of America 	73.6 million	$149	$10.97 billion	Key Drivers: Population, Private School Dominance, Growing Market, Education Synergy PESTEL: P ✓ T ✓ E ✓ E ✓ S ✓ L ✓	The USA's emphasis on **STEM education**, mirroring India's approach, not only sustains Indian-style education but also boosts sales by **aligning with consumer needs**.	✓ **Enter with Domain 1 &3 (Domain 2 not feasible)**
North America	Canada 	7.23 million	$131	$947.13 million	Key Drivers: Population, Private School Dominance, Growing Market, Education Synergy PESTEL: P ✓ T ✓ E ✓ E ✓ S ✓ L —	Expanding into Canadian K-12 ed-tech market, while promising due to its **significant value and growth potential,** may face **regulatory challenges** amid **diplomatic tensions,** impacting the success of the platform.	— **Entry on hold**

*Assumption(s): ARPU (Avg. revenue per user) Calculation = Avg. Household Spending on Education * 0.1 {Assuming that our potential market is 10% of the total educational spending per household}*

Charting Success: Domains, Market Entry, Timeline Navigation

MASTERS' UNION

Strategic Prowess: A Comprehensive Exploration of Product Domains, Market Entry Tactics, and Timely Promotions for Charting Success.

What? (Product Mix)

Domain 1: SkillSphere

This interface is designed to empower K-12 students with **essential skills for today's complexities**. Thoughtful modules impart imperative skills, addressing dynamic demands.

Students progress through **skill levels,** earning a **professional certification** upon completing the final stage, providing credibility for their ongoing studies.

Domain 2: CurriculumCraft

This interface supplements existing curricula, offering interactive tools & and resources for classroom learning.

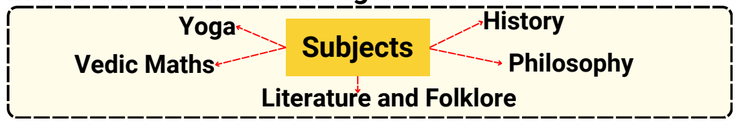

Centralized Integration:
- Seamlessly integrates with existing curriculum.

AI-driven Recommendations:
- Suggests resources based on student performance.

Enhanced Classroom Engagement:
- Reinforces key concepts with captivating, interactive tools.

Domain 3: Wisdom Web

Our interface preserves our identity by embodying the **essence of Indian-style education**. It reflects our commitment to imparting a **holistic understanding of Indian culture and knowledge.**

These **Indian-centric subjects**, ensure a strong focus on our rich cultural heritage with our own**educational style.**

How to Enter?

Brownfield investment - Acquisitions

Set up Greenfield Operations

Joint Venture

Oursourcing

STEM.org ACCREDITED EDUCATIONAL EXPERIENCE

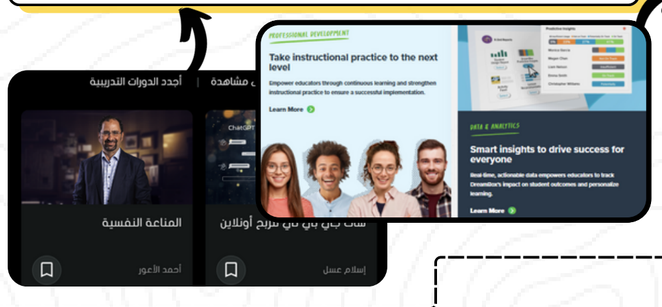

Codeyoung

An ed-tech startup that has been able to generate **massive traction in the UAE** by engaging over 8000 students with its '**Coding for Kids**' platform. We're poised to promote innovation among the UAE's youth.

almentor

Leading video learning platform offering online content for Arabic speakers with a wide range of courses developed by experts, addressing the **education gap** for 10 million Arabic speakers in the **MENA region**.

dreambox LEARNING By Discovery Education

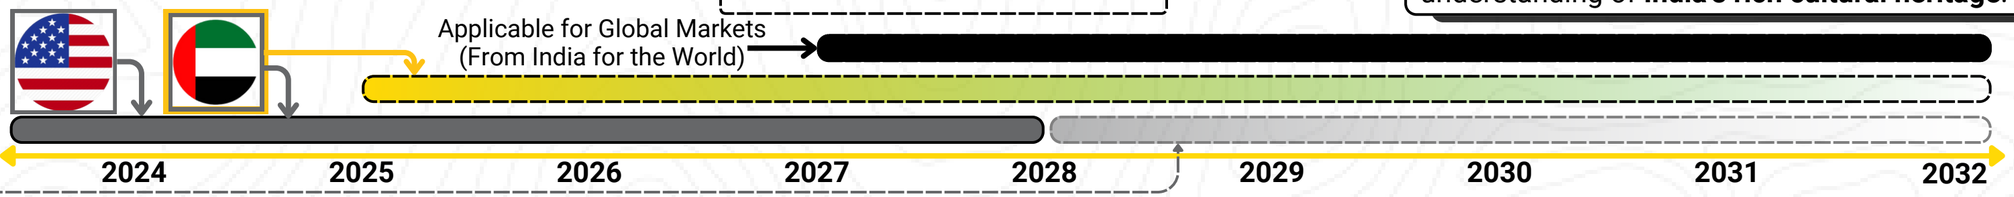

Personalized K-12 math education through **adaptive tech**, with insights to meet changing needs. It is a premier K-12 math education platform, that personalizes learning using technology, engaging over **5 million students.**

Dr. Raj Balkaran
THE INDIAN WISDOM SCHOOL
SCHOLARSHIP • STORYTELLING • SPIRITUALITY

"**The Indian Wisdom School**," emphasizes traditional Indian subjects. It involves **collaboration with scholars and tech experts** to create an immersive platform showcasing yoga, and Vedic maths, fostering understanding of **India's rich cultural heritage**.

Long-term pivot from being curators of content to a platform for learning like SkillShare.

Timeline

Assumption(s): Given the company's success in India, we assume that the company's financials can allow us to undertake acquisitions overseas (of mid-sized < $10 million) and other ventures.

Market Penetration Strategy and Product Vision

MASTERS' UNION

STP Framework, 4P Marketing Mix, Product Features, and Competitor Analysis in USA and UAE Markets

S – Segmentation

In the UAE, we target **expatriates** and Emirati students, while in the USA, our focus is on **public and private schools** across diverse regions. The UAE hosts over **700 private K12 schools** with a rising trend in digital learning, and the USA caters to **50+ million students.**

T – Targeting

In the UAE, we offer **bilingual, globally accredited content** that aligns with the UAE's curriculum. In the USA, our strategy centers on **Common Core State Standards compliance** and adaptable content for different state-specific educational requirements.

P – Positioning

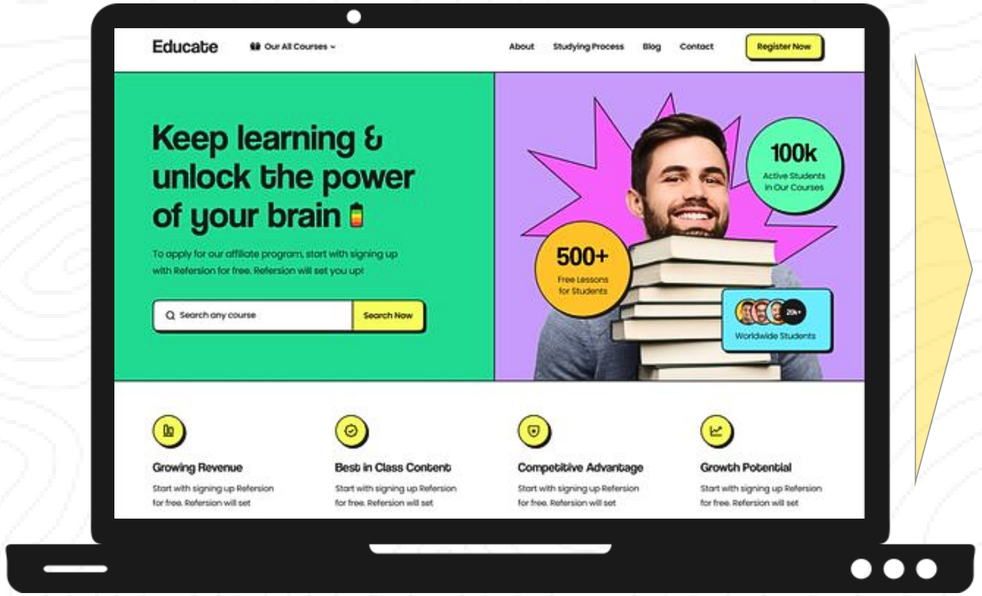

In the **UAE**, we offer **premium, culturally sensitive education blending** global standards with local relevance. In the USA, we prioritize **adaptability and personalized learning**. **Endorsements** and **student success stories** bolster our reputation as a trusted educational partner.

AI-Powered Personalization

Adaptive learning pathways are tailored to each student's unique needs and pace.

Real-Time Analytics Dashboard

Instant insights into performance, enabling timely interventions.

Learning Quests and Challenges

Gamified challenges and quests to make learning exciting and goal-oriented

Interactive Knowledge Pods

Adaptive learning pathways are tailored to each student's unique needs and pace.

Major Competitors - USA

Kahoot! K12 class Technologies Inc. VIPKID

Major Competitors - UAE

بكة bakkah الوسائط neon edX

Promote K12 ed-tech innovatively in the USA and UAE with :

- **Gamified challenges**
- **Peer learning networks**
- **Expert sessions**
- **Teacher workshops**
- **VR field trips**

This will put our platform out in the market more evidently

SkillSphere meets the **skill-centric education** demand in **90% of USA school districts** and **80% of UAE private schools**. CurriculumCraft aligns with **97% digital learning adoption** in the USA. Wisdom Web fulfills UAE's **cultural preservation needs** and **supplements global education trends** in the USA.

We aim to **partner with key educational schools** in the USA, with priority for **70% of US districts**. Leveraging online platforms and **educational events** maximizes outreach, tapping into **UAE's 700+ private K-12 schools**, known for digital learning adoption.

Tailored Pricing Models: McKinsey's market research indicates that **flexible pricing models**, such as **subscription-based access** or **module-based purchases**, accommodate preferences in both the USA and UAE markets.UAE sees a **25% uptick in edtech spending**, signaling growth.

Pricing Model

MASTERS' UNION

Built with comprehensive competitor study for UAE and USA k-12 markets separately

United States of America

Domain 1&3 : (USA)

$80

Low-cost Courses:

Online platforms offer such subject courses at **$10 to $50**. Focus on **specific areas, frameworks**, or niche topics. **Limited coverage is not suitable** for K-12 instructional needs.

Mid-range Courses:

Priced **$50 to $200**, providing comprehensive instruction. **Larger course catalogs** Suited for our K-12 company's broader educational requirements.

Strategic Choice for our K-12 Company:

Focused on **teaching from basics**, not highly advanced versions. Positioned strategically in the **mid-range category** for a balanced approach.

Domain 2: (USA)

$180

Target Market Consideration:

Courses catering to K-12 education in the USA are typically priced between **$150 and $280.** Aligned with **STEM education**, a common focus in USA and India.

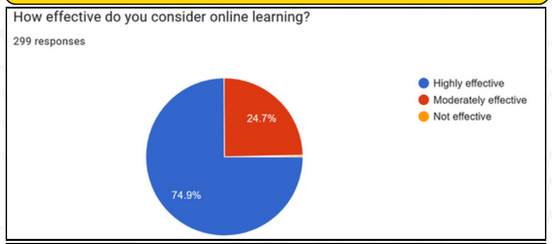

Affordability Strategy:

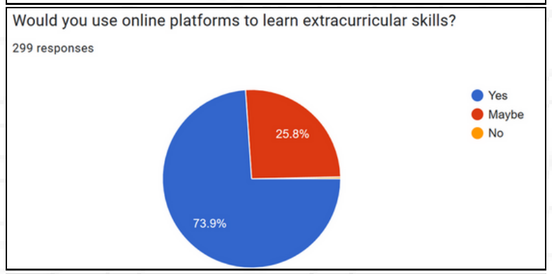

Despite providing similar content, our costs are manageable, allowing us to offer **competitive pricing.** Choosing a **mid-range** approach, course priced at an affordable **$180.**

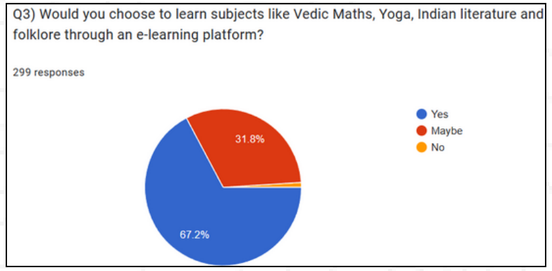

Appealing to a Wider Audience:

This pricing strategy positions us as a **cost-effective option** in the market.

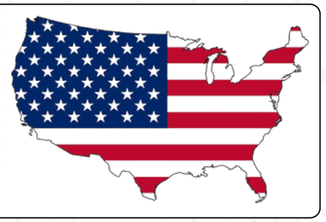

Primary Research

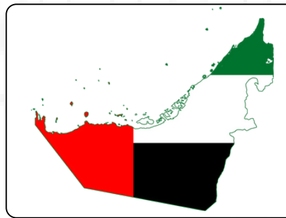

Link to Survey Form

United Arab Emirates

Domain 1&3 : (UAE)

$150 (550AED)

Low-cost Courses:

Geared towards **beginners and younger age groups**. Price range: **300 AED to 800 AED**. Ideal for an entry-level introduction to these subjects.

Mid-range Courses:

Tailored for **older kids** exploring advanced topics. Price range: **800 AED to 1,500 AED** Suitable for individuals with some **experience**.

Strategic Choice for our K-12 Company:

Basic courses at an affordable **$149.77 (550 AED)**. Tailored for K-12 students, **Balances affordability with quality**, offering foundational concepts without complexity.

Domain 2: (UAE)

$259 (950AED)

Basic Online Courses:

Target specific subjects or grade levels. Price range: **200 AED to 800 AED**. Provide **supplemental material** to support the school curriculum.

Comprehensive Programs:

Designed for **homeschooling or supplementary education**. Higher costs range from **800 AED to 2,000 AED or more**. Serve as an alternative to traditional schooling.

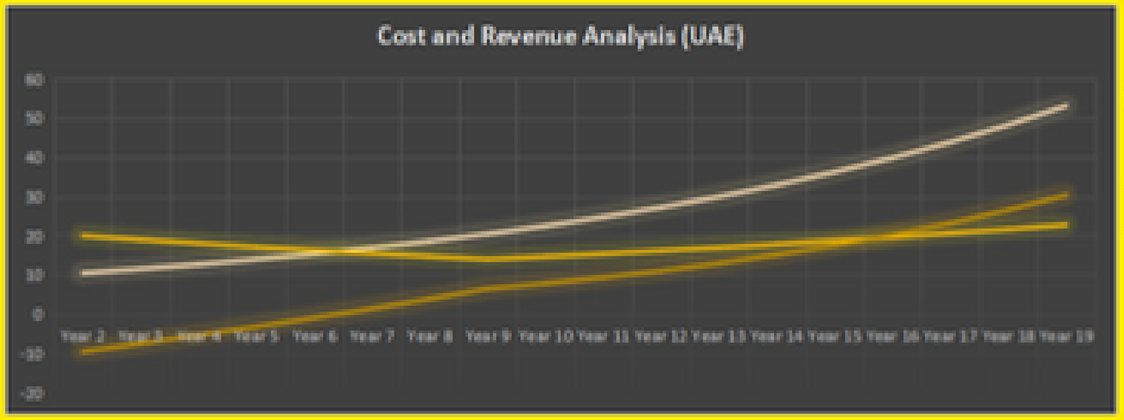

Our Pricing Strategy:

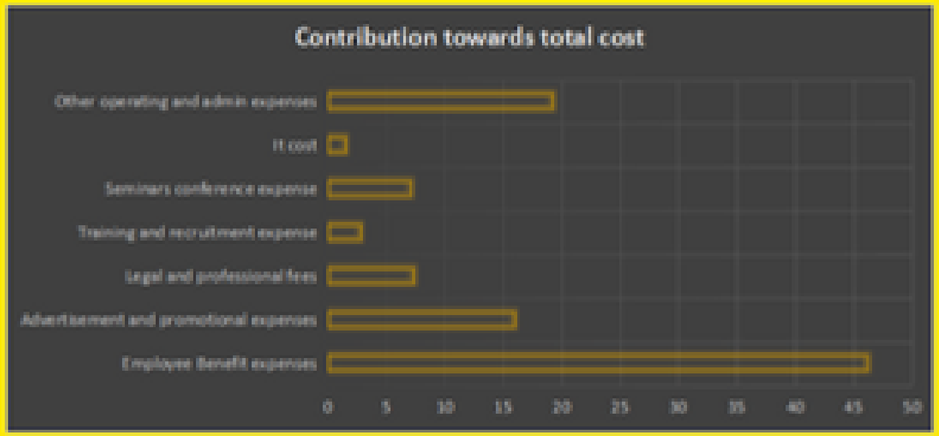

Positioned between **basic online courses and comprehensive programs**. Priced at **$259 (950 AED)**. Provides a **safer pricing point**, balancing affordability and value.
