Trait	Evidence
Who buys	21%, mostly Good phones
Wants	to know who will fix it
Visitor data	Battery will not last, 46%
Visitor data	Condition unclear, 41%
Channel plan	Stores and referrals: proposed

In a customer's words: "Phone theek hai, par bharosa nahi hua." The phone is fine, but I never came to trust it.

ONE GOOD PHONE, TODAY TO OUR PLAN, ₹

Fair goes the other way: ₹716 today, ₹164 after the battery and the report. We do not chase value seekers.

POSITIONING

For families buying a phone for a parent or a child, who need it to last and need to know who will fix it, Tikau sells refurbished phones that each come with a lab report, battery health of 85% or more and a 12 month warranty, because every phone is tested and its battery read in Tikau's own lab.

Proof 1: battery read in our lab

Proof 2: IMEI checked, data wiped

Proof 3: 12 months, repaired by Tikau

THE LINE A CUSTOMER REMEMBERS

Har phone ki kundli.
Saal bhar ki zimmedari.

Every phone's full report. A year of responsibility. A kundli is the chart a family reads before a big decision.
