PROJECT DOBAARA

TIKAU PHONES, JANUARY TO MARCH 2027

A board recommendation: which options to fund from ₹80 lakh of growth money, which customer to win, how to launch in February and how to know by mid February that it is working

OUR ANSWER: CERTIFY EVERY PHONE, PROMISE 85% BATTERY AND 12 MONTHS, AND OPEN A THIRD LAB SHIFT ON 1 FEBRUARY, FOR FAMILY BUYERS

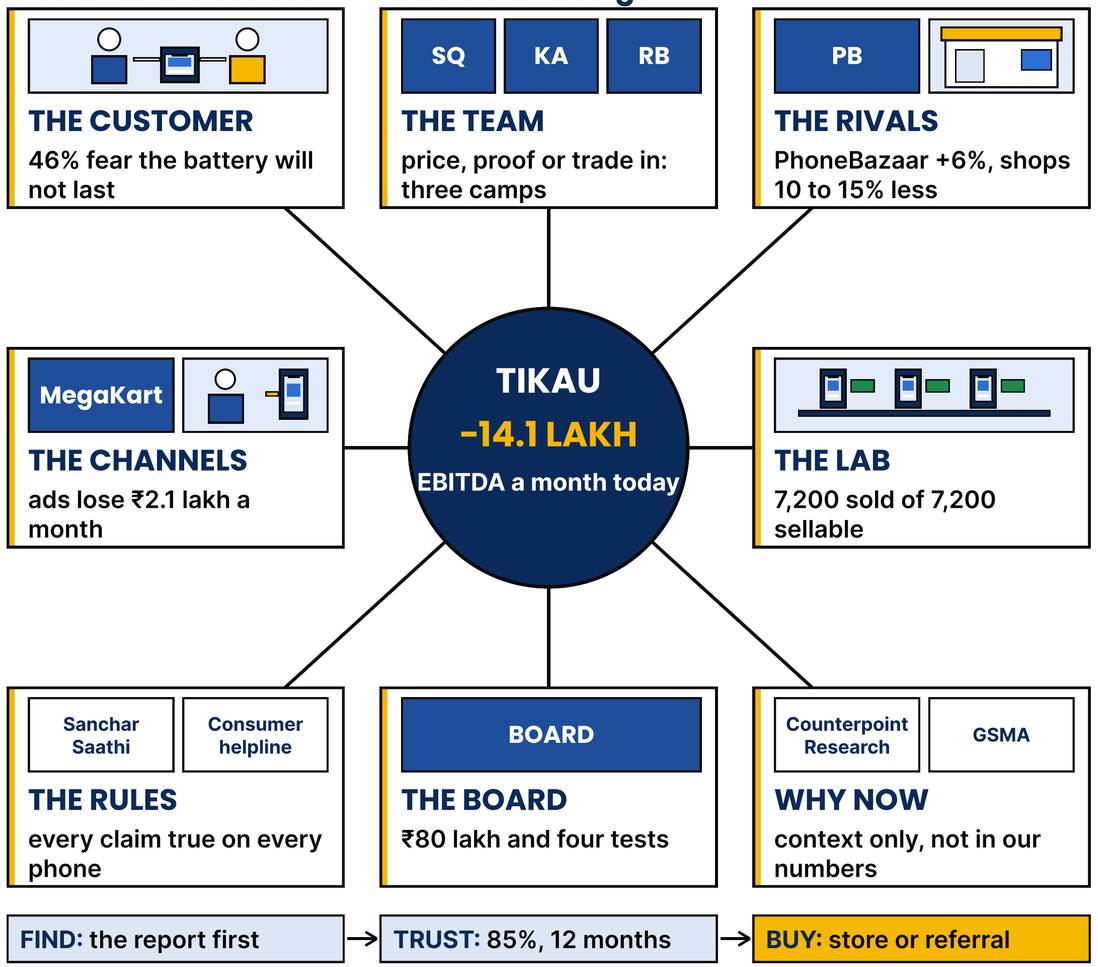

In our model March EBITDA moves from −₹14.1 lakh to +₹5.6 lakh and the return rate from 8.1% to 4.5%, for ₹58.0 lakh of the ₹80 lakh. All four board tests pass. No price cut, no trust campaign, and trade in waits for April.

WHO DECIDES WHETHER A TIKAU PHONE GETS BOUGHT

One Noida lab, five channels, three grades: Tikau sells 7,200 phones a month and loses ₹14.1 lakh a month doing it.
