Case Competition

A 100 Day Plan

to reduce discrimination in access to goods and services, along with tackling social exclusion.

How?

Introduce ordinances and schemes to better implement existing legal measures like Transgender Persons Act, 2019 and other principles outlined by the Supreme Court.

Along the lines of...

Supriya Chakraborty & Abhay Dang

NALSA v. Union Of India

K. Puttaswamy

Navtej Singh Johar

Our 3 Primary Objectives...

1. Create amenable conditions for the recognition of queer marital and non-marital unions.

2. Create a social environment and community attitude conducive to adoptions by queer parents.

3. Expand administrative frameworks to accommodate the right to choose and create ‘atypical’ families.

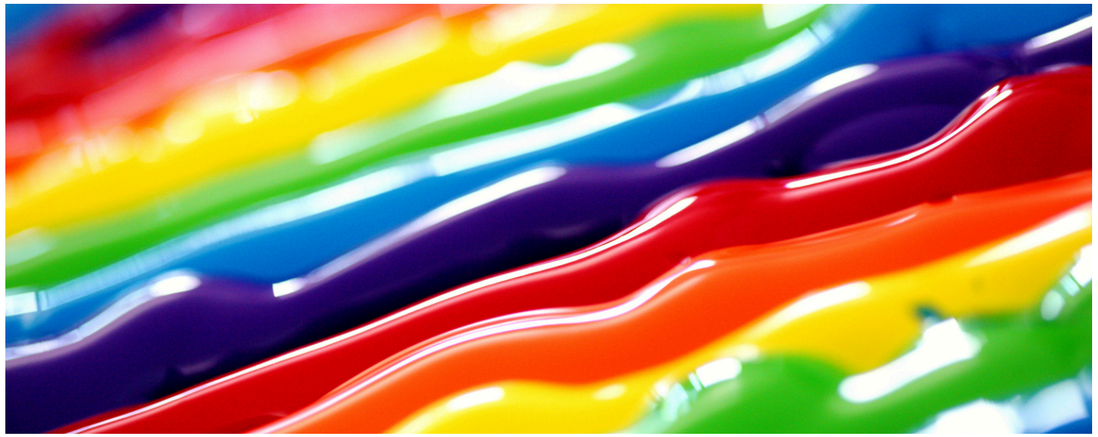

... and 5 Immediate Measures

1. **Recognition of non-marriage civil unions** for benefits like **ration cards, joint accounts, pension & gratuity**, and train **marriage registrars**.

2. **Officers** for **administrative and grievance redressal.** They would be the **first point of contact for social grievances**.

3. **Dedicated emergency and support helpline** to **handle urgent requests** and **primary aid**.

4. **Safe houses** to protect against violence and abductions + **Police training programs** to assist victims rather than offenders.

5. **Ban on operations and any forceful surgeries** through disincentivisation.

Proposed Initiatives

Education	Sensitisation	Legislation	Publicity	Job Creation
₹3,000cr	₹2,000cr	₹500cr	₹1,500cr	₹3,000cr

Education
₹3,000cr

What?

Providing **sex education, gender theory, history and contemporary status of the LGBTQI+ community** in schools as subjects.

Why?

Education on matters of sexuality, gender, identity and the struggles faced by queer people will inform children of their struggles.

How?

The **runoff effects of child awareness** will ensure that households and social units adopt an **empathetic view** of their issues.

Sensitisation
₹2,000cr

What?

Creating **community centers** as safe spaces, **organising events** for queer issues to be highlighted, launching a **pan-India NGO**, and changing governmental procedures.

Why?

To **further foster a change in public opinion,** the government should **supplement pride parades and workplace policies** with its own intitiatives.

How?

Including queer people into administrative and regulatory folds through **inclusive language** and a larger public spotlight.

Legislation

₹500cr

What?

1. Enacting legislations allowing same-sex & queer marriages, and **voluntary self-determination** of gender and sexuality.
2. **Amending criminal laws** to penalise offences against transexual and other queer individuals.

Why?

Perpetrators like members of the natal family, community and state agencies still **roam free**. Abuse and **harassment by the public and police** in common spaces, homes, jails and police stations is a **widely documented** phenomenon.

How?

The Justice Verma Committee on amendments to criminal law in 2013 recommended that **the victim in sexual offences must be made gender neutral**, to bring within its fold sexual violence against transgender and queer persons.

Publicity

₹1,500cr

What?

Increasing **financial support to queer-owned productions**, media houses and creatives across domains.

Why?

For social issues, **media like movies, TV shows and ads fulfils an important role** of laying out an ideal to be followed and **approaching situations and challenges with empathy**.

How?

Establishing a **panel of experts** in the field to decide upon projects to be supported, and **dedicating public visibility** spaces like transport, office signage, messages and government portals to highlight **queer films, shows, plays and stories**.

Job Creation
₹3,000cr

What?

Skill development among underprivileged sections, and **increasing employment rates** in the public sector through **quotas**.

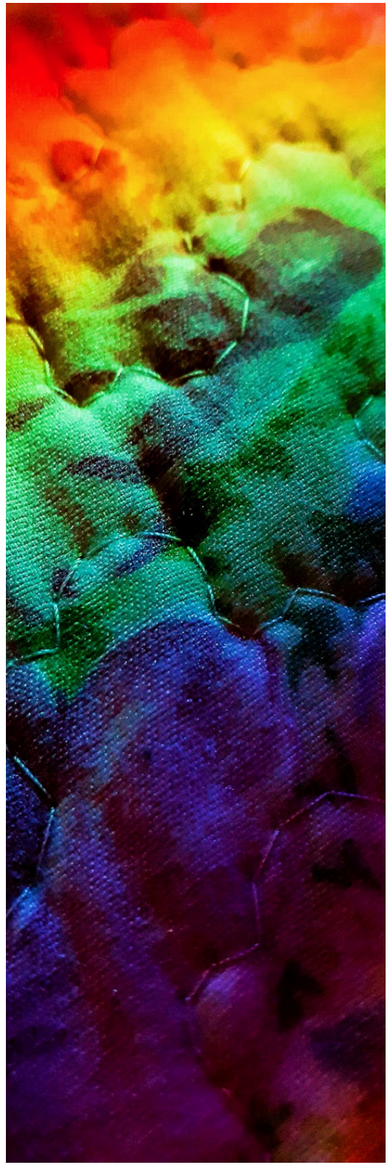

Why?

1. A lack of education and skills among queer individuals exacerbates discrimination at various levels of society.
2. Poverty disproportionately affects queer individuals, due to **unemployment and underemployment**.

How?

Align **public sector businesses** in community programs like **reforestation, cleanliness drives**, traditional arts, etc. They can also be utilised in the **welfare sector as employees**.

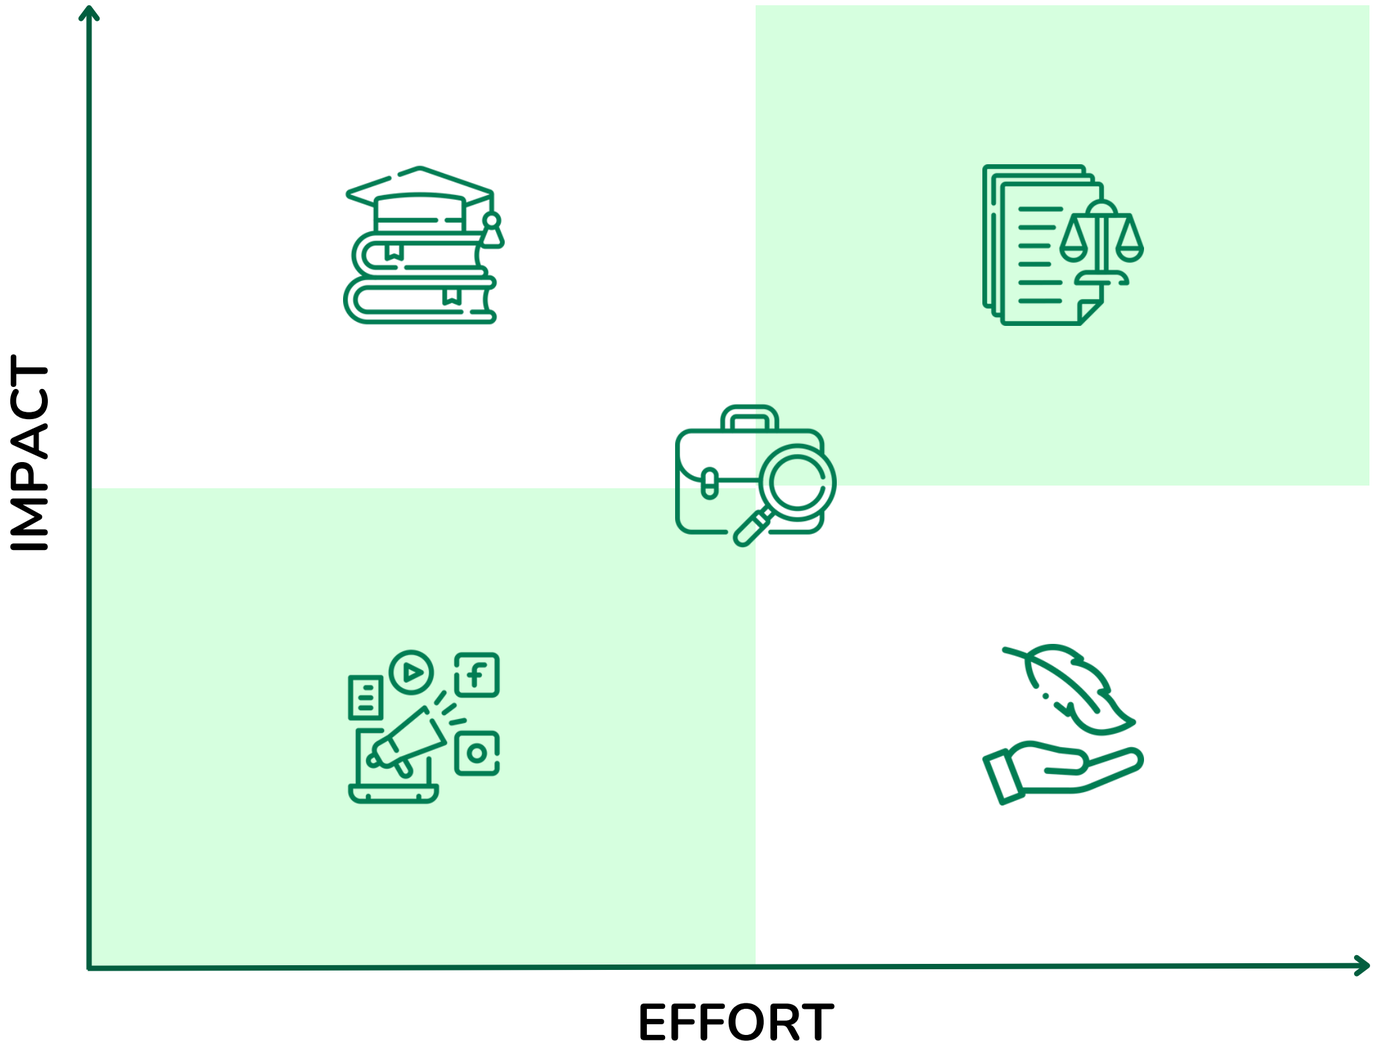

Initiative Evaluation Matrix

A visual representation of the returns from each of our proposed initiatives.

Effort includes the level of **coordination & collaboration required between departments to get the ball rolling**, while impact is all-encompassing.

A Deep Dive Into Education

to drive destigmatisation of the community and the core value of empathy.

Operating Model

Curriculum will start for **grades 9-10**, with an option to opt for **advanced theory and concepts in grades 11-12**. However, chapters for basic awareness will be added earlier from **grade 4**.

It would include the **concepts of sex, gender, orientation and how to deal with identity issues**, along with the **history of queerness in India** and its sociological and cultural significance.

Properly-trained **counsellors in all schools** will help individuals with gender fluidity, dysmorphia, etc.

Materials and textbooks will be freely available online, and lessons will also be released through **video lessons and MOOCs** on existing portals.

For higher institutions, **hackathons & case competitions** would be used to **highlight issues & find practical solutions**.

Partnerships

	Examples
Educational Institutions	Schools in Kerala have adopted a gender-neutral curriculum.
Government	Karnataka - 1% reservation in jobs for transgenders.
Companies	TATA Steel with LGBTQIA+ ERGs (Employee Research Groups).
Advocacy Groups	Naz Foundation which was pivotal in abrogating Section 377.

Fund Requirement

Year 1: ₹1,250 Cr

1. Develop the **curriculum, educational materials and pedagogy**, to be run on a pilot basis in Tier 1-2 cities.
2. **Training teachers, ancillary staff** and establishing guidelines.
3. Set up a **central authority and grievance redressal** framework.
4. Encourage **safe spaces and support groups** for LGBTQ+ students akin to **GSAs (Gay Straight Alliances)** in the USA.
5. **Anti-bullying** and anti-discrimination campaigns.

Years 2-3: ₹1,750 Cr

1. Expand the reach of the initiative by **collaborating with NGOs.**
2. **Scale up training programs** to more cities and rural areas.
3. Improve the **reach of safe spaces and anti-bullying campaigns**.

Key Performance Indicators

1. **Participation** in the program
2. **Feedback and Satisfaction** from all stakeholders
3. Community **Awareness and Engagement**
4. Reduction in violence and forced conversion therapy

Thank you,
from Team Troika.

Appendix

100 Days Plan

Supriya Chakraborty & Abhay Dang v. Union of India

1. No “right to marry” for same-sex couples, but transgenders and intersex (as sex is different from gender) have a right to marry and same-sex have a right to choose their partners and cohabit.
2. 3:2 split on couples not having a right to adopt and not enjoying a right to a civil union.
3. CJI and Kaul said to create a regulatory framework to recognise such relationships - ration cards, joint bank accounts, pension flows and gratuity, marriage registrars need to create fewer obstacles.
4. The right to choose families was upheld, as families are more than just procreation, and CJI recognised ‘atypical families’.
5. Supreme Court’s verdict on same-sex marriages | Explained - The Hindu

Proposed Initiatives

Sensitisation

Current situation

1. 2021 survey by Ipsos found that 56% of Indians support LGBT+ rights.
2. Mumbai Queer Azaadi March saw a turnout of over 15,000 people in 2020.
3. According to the India Workplace Equality Index 2020, 65% of participating companies had policies that protect employees from discrimination based on sexual orientation.

Operating Model and Fund Allocation

1. Monologue events where people from the LGBTQIA+ community can share their experiences and views. (₹175 Cr)
2. Setting up of a pan-India NGO on the lines of The Trevor Project. Though many NGOs in India like Nazaria, The Bi-Collective, Naz Foundation, and The Humsafar Trust target niche issues, there is a need for a countrywide support system. (₹700 Cr)

Continued...

Operating Model and Fund Allocation

1. Creating community centers where the LGBTQIA+ community can conduct workshops for the empowerment of the individuals and express themselves freely. (₹225Cr)
2. Promote the use of inclusive language in all communications and documents. (₹900Cr)

Publicity

Operating Model

1. Onboarding renowned personalities in the cause and holding talk shows describing their experiences like Dutee Chand, a professional sprinter who's India's first and only openly gay athlete, and Indian royal Manvendra Singh Gohil, the world's first openly gay prince.
2. Promoting queer-owned businesses at events and job fairs.
3. Highlighting queer-owned startups and businesses in the form of interviews and industry coverage, like Kineer: an initiative taken up by the transgender community to provide packaged water facilities in the B2B segment to established brands such as Vistara, The Lalit and HCL.
4. Representing LGBTQI+ people in several domains through competitions with monetary prizes and training, like sports.

KPIs

1. Inclusivity in Policymaking
2. SDGs Satisfied

Deep Dive: Education

Operating Model

1. As per the 2011 census, India recorded over 4.88 lakh people who identified as the third gender. Despite progress in certain regions, the literacy rate among transgender individuals remains significantly lower than the national average of 74.04%, standing at just 56.07%.
2. According to the ILO's PRIDE Project, LGBTQ+ individuals report discrimination in educational settings, impacting their mental health and future employment prospects.
3. The Transgender Welfare Board in Tamil Nadu created to empower the transgender community through services as identity cards, ration cards, house pattas, residences, free sewing machines, higher education assistance, Self Help Groups, free bus travel, free skill trainings, grant upto ₹50,000 for income generating activities, and a 25% subsidy to such SHGs for starting self employment.

Fund Requirement

1. Sarva Shiksha Abhiyan introduced in 2001 as per the budget 2002-3 had an outlay of ₹1,650Cr to achieve the Universalisation of Elementary Education (UEE) backed by Article 21A.
2. SSA was approximately 0.073% of GDP back in 2002 and Year 1 of ours is approximately 0.0072% of GDP 2023-24. Similar to SSA, our program also emphasizes initial expenses for curriculum development and other foundational activities, reflecting a similar approach in the early stages of implementation.
3. However, the proportion of GDP allocated is relatively lower due to the budgetary constraints and the larger GDP base.

Partnerships

1. Education Institutes: Kerala Gender Neutral Curricula
2. Governments: Karnataka affirmative action
3. Companies: Tata's LGBTQI+ Employee Resource Groups
4. Advocacy groups: Naz Foundation and Humsafar Trust
