Consumer Behaviour & Market Analysis | Competitive Benchmarking | Retailtainment Solutions | Marketing' Strategies | Impact and Implementation

Analysis of Consumer Behaviour

Interest Curve: *Rises with engagement, peaks with sufficient info, declines with over-involvement.*

Optimal Point: *Customers prefer freedom to explore or decide after reaching the peak of interest.*

Engaging explanations spark curiosity and set the tone for meaningful exploration.

Persistent sales efforts beyond the peak irritate customers, reducing interest and satisfaction.

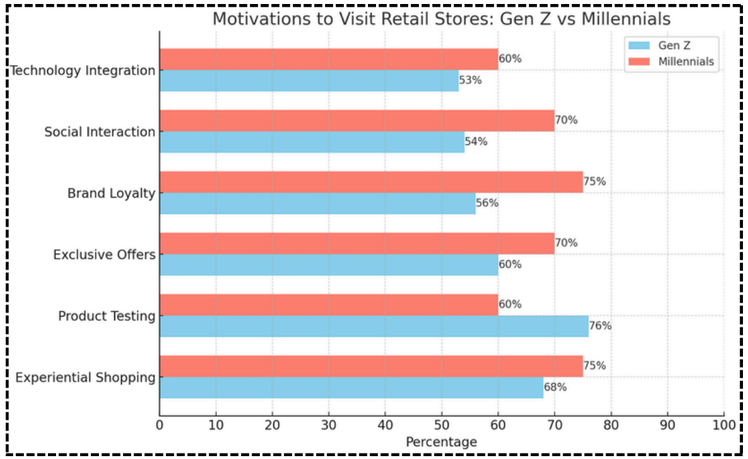

Key Insight: Balance guided engagement with personal decision-making space to maximize conversions.

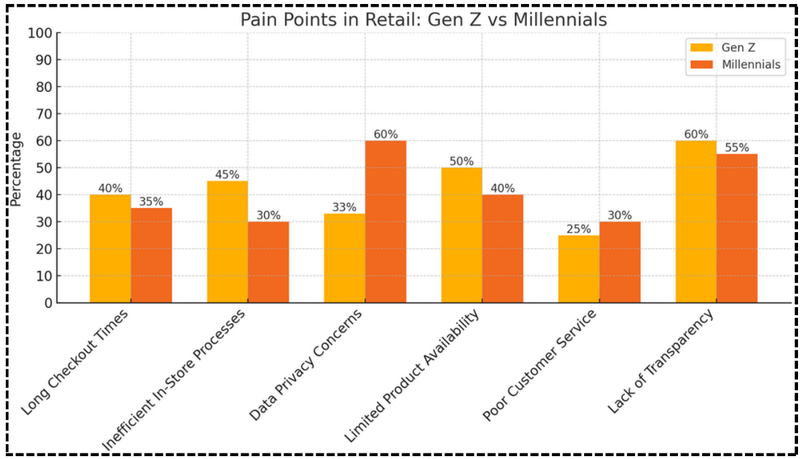

Motivations: *Hands-on experiences, product testing, and exclusivity attract customers.*

Motivations pull customers in; pain points push them away.

Pain Points: Long checkouts, inefficiency, and lack of transparency deter satisfaction.

Key Insight: Addressing these pain points with streamlined processes and transparent interactions can bridge the gap, ensuring motivations lead to conversions.

Competitive Benchmarking

Company	Adidas	Lululemon	Farfetch	Ikea	Vans
Links	***Source***	***Source***	***Source***	***Source***	***Source***
Type of Retailtainment	AR/VR & Experience Store	Community Hub & Fitness	Smart Mirrors & AR	Social Media & Events	Cultural Immersion Space
Explanation	AR for immersive experiences like "House of Adidas" and exclusive product drops, enhancing brand interaction	Stores function as community hubs with fitness classes and wellness events, creating a deep customer connection	Smart mirrors allow for personalized, data-driven shopping experiences, blending online and offline seamlessly	Experiential campaigns, like the "Big Sleepover," engage customers directly through social media and in-store events	The House of Vans integrates skate culture, art, and music into their stores, creating a lifestyle-driven retail space
Engagement	8	9	8	9	9
Brand Loyalty	8	9	7	7	8
Tech Integration	9	7	10	7	7
Conversion	7	8	8	8	7
What Samsung Can Learn	Integrate **AR/VR** for product demos and exclusive tech launch events to drive customer excitement.	Develop **tech hubs** where users can engage with **new product tech**, fostering brand affinity.	Incorporate **smart displays** for tailored product recommendations, enhancing tech exp.	Leverage **social media** for tech **product showcases and events**, boosting store engagement.	Build **multi-functional spaces** integrating technology and lifestyle elements like **esports zones.**

Samsung's Brand Personality

Innovative
Friendly
Reliable

Mascot

SAM - E

(Samsung Experience)

Our Futuristic Companion

Positions

SAMSUNG as *"The Innovator of Tomorrow"*

Why is Sam-E Required?

Acts as the **consistent face** of Samsung; reinforcing brand **recall**.

Humanizing Technology & making futuristic products relatable.

Face of AI Salesbuddy; personalised recommendations & product education.

Metaverse VR Store : Samsung Universe
"Access the Unseen"

Create a digital twin of Samsung's physical store in the metaverse for a fully immersive, fully-accessible shopping experience.

Virtual Reality Store Experience

Enter VR Store
Customers access the VR store using headsets or devices.

Interactive Product Exploration
Users explore products and view factory tours.

Virtual Consultation
AI bot provides personalized product recommendations.

Purchase Point
Users complete purchases through AR/VR checkout.

Sales Drivers:

- Unlock exclusive **virtual collectibles** (e.g., "Factory Insider," "Product Pioneer").
- Redeem for **early product launches**, special experiences, etc.
- Shareable collectibles; **social proof** and **FOMO** with purchase.

AI Interactive Salesperson : Samsung Buddy
"Your Own Smart Tech Advisor"

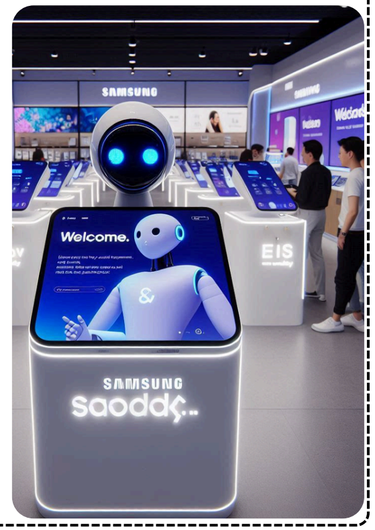

Provide personalized, real-time assistance and product guidance through interactive AI bots and touchscreens in stores.

Engage AI Bot
Customers interact with AI touchscreens for inquiries and recommendations

Navigation Assistance
AI bot activates arrows to guide customers

Product Customization Kiosk
Customers visualize and customize products

Checkout and Integration
Customers finalize purchases or order online

Sales Drivers:

- Create **personalised** product **kits** tailored to **customer profiles**.
- Include **curated** smartphone, accessories, and electronics comparisons & cust. **data** collection.
- Offer onboarding **support** for added exclusivity and value.

Themed Immersive Stores: Samsung Innovation Museum
"Own a Piece of Innovation History"

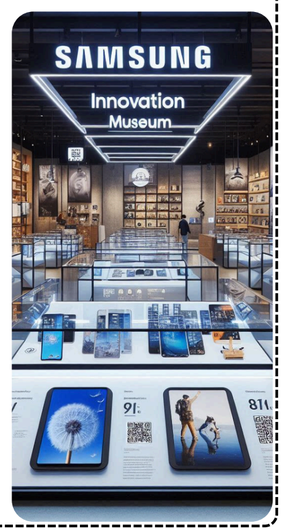

Provide personalized, real-time assistance and product guidance through interactive AI bots and touchscreens in stores.

Entry Experience
Customers enter a timeline of Samsung's milestones

AR Interactions
QR codes and AR tech provide insights

Selfie Zone
Customers take themed pictures with the environment

Interactive Displays
AI-driven displays allow product visualization

Sales Drivers:

Access **time-limited**, **themed** product **bundles** (e.g., "Tech Origins").

- Combines products with branded, collectible accessories.
- Drives purchases through exclusivity and storytelling.

AR/VR Gaming & Discount Corners: *Samsung GameTech Zone*
"Play, Compete, Win Your Future Tech"

Engage customers through interactive VR gaming stations that educate about Samsung's values & initiatives; offer discounts.

Samsung Interactive Game Experience

Game Introduction
Customers register and choose games

Interactive Gameplay
Customers play VR games in-store

Reward Redemption
Scores translate into rewards

Connection to App
Game results stored in app

Sales Drivers:

Earn discounts or rewards through VR gaming achievements.

- Higher scores unlock larger rewards, enhancing engagement.
- Fun and competitive experience drives repeat visits.

In-store Live Events & Sessions: *Samsung Experience Live*
"Be First to Discover Tomorrow"

Leverage techfluencers and exclusive product launch events to create buzz and engage target audiences.

Samsung Event Engagement Process

RSVP through App
Attendees RSVP via the Samsung Experience App

Event Participation
Attendees participate in events for exclusive access

Hybrid Event Format
Events held in-store and streamed globally

Interactive Engagement

Convenience-Driven Shopper, Tech Enthusiast

Success Metrics:
- Event Attendance
- Feedback Engagement
- Social Media Buzz
- New Product Interest

Samsung App

Samsung Experience App

1

Tracking User Information: Personalized insights to improve customer experience and analyze behavior trends.

2

Data-Driven Personalization:

- Collects user preferences to offer tailored product recommendations.
- Tracks customer interactions for enhanced user experience and loyalty.

3

Seamless Purchase Journey:

- Redirects users to the online Samsung Store for convenient purchases.
- Syncs with in-store experiences for a unified omnichannel journey.

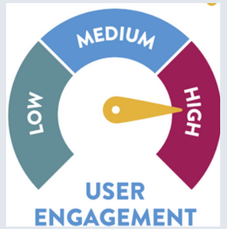

4

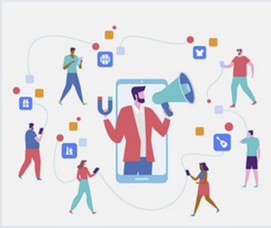

- **Integration of Features:**
  - Notifications for exclusive tech events.
  - Gamified experiences for VR gaming zones.
  - Feedback and interaction tracking via AI.

Impacts

Enhanced Brand Awareness → **Increased Engagement** → **Stronger Social Media Buzz**

Data-Driven Insights → **Improved Customer Experience** → **Increased Purchase Intent**

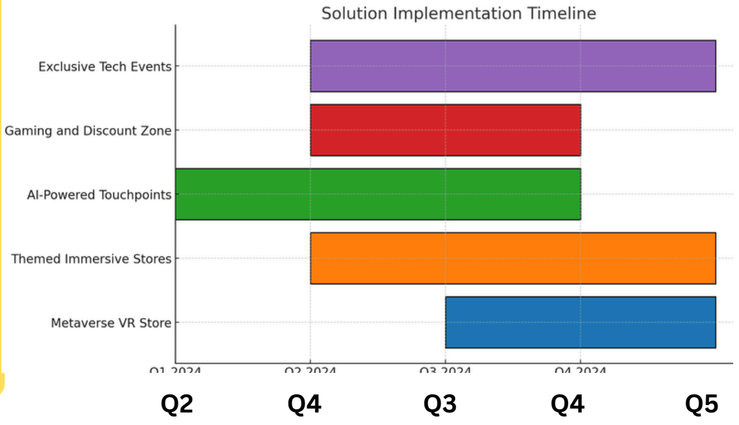

Implementation

Solution	Success Metrics	Alignment with Samsung Capabilities (x/10)	Partnership Required	Feasibility (x/10)	Cost
Metaverse VR Store	Foot traffic, customer engagement, purchase rate	8	No (*link*)	7	High
Themed Immersive Stores	Customer dwell time, brand visibility	9	No	8	High
AI-Powered Salesperson	Interaction rate, customer feedback	9	Yes	8	Medium
VR Gaming & Discount Zone	Repeat visits, engagement duration	8	No	7	Medium
In-store Tech Events	Event attendance, social media buzz	7	Yes (with techfluencers)	6	Medium-High

The cost estimates are based on Samsung's current AR/VR, AI, and immersive tech investments. High costs reflect advanced infrastructure or partnerships, while medium to low costs leverage Samsung's existing capabilities for efficient scaling in high-traffic venues.
